

Shred-X of Pottsville
 200 Norwegian Street, Pottsville
 570-622-0120

Are you disposing of your confidential papers properly? You can't afford to have your discarded records to be seen by the wrong people.

New laws are currently in effect - specifically HIPAA, effecting the medical field with the intent to safeguard patient's records, and the Gramm-Leach-Bliley Act enforces financial institutions to protect the security of their clients by safely destroying all private information.

Shred-X of Pottsville On-site Document Destruction program allows you to customize the amount of service needed. Their employees remove the security cabinets to the mobile shredder where you can witness the actual destruction of your documents. Finally, all destroyed materials are transported to recycling centers.

Shred-X will not only protect you from confidential information getting into the wrong hands, they will also save you time, and provide a cost-effective alternative to maintaining equipment, space and personnel.
